## Lassiter Issues Summons Against Members Of Union

By DAVID HILL  
Murray Ledger & Times Staff Writer

Seventy-eight persons have been named in a civil summons issued Thursday by Circuit Judge James Lassiter in the latest development in the nearly two-month old Tappan strike locally.

City and County law enforcement authorities have begun serving the stack of summons, which restrains and enjoins those named from:

—Picketing by more than three persons at any one entrance to the Tappan plant;

—Congregating in groups of more than three at or about any entrance or exit to the plant;

—Causing injury to or threatening to injure any person seeking to come upon the Tappan premises;

—Hindering or interfering with Tappan employees or agents in carrying out their duties;

—Blocking in any manner any railway vehicle, motor vehicle or other vehicle being used to transport any Tappan property to or from the plant;

—Threatening, cursing or intimidating any of the Tappan employees or agents;

—Injuring or damaging any of Tappan's personal or real property;

—Disrupting or attempting to disrupt the normal and ordinary operation of the Tappan business;

—Trespassing upon the property of the plaintiff or upon any railway spur and track leading to the property;

—In any manner interfering with the normal operations of Tappan business;

—And in any manner interfering with the transportation of Tappan property or any property it possesses.

Union members prevented boxcars loaded with goods from being removed from the Tappan warehouse early this morning. City Police Chief Brent Manning began serving some of the summons documents at that time, but police were not used to attempt to break up the blocking of the tracks.

Company officials have said that the latest summons is merely an addition of names to the original restraining order issued last week by Judge Lassiter.

Murray Police Chief Brent Manning began serving some of the around 78 civil summons issued for Tappan union members by Circuit Judge James Lassiter. Union members successfully kept railroad boxcars loaded with goods from

being moved from the Tappan warehouse this morning. At left is State Trooper Charles Stephenson, also at the railroad tracks this morning.

## MSU To Begin Courses At Eddyville This Fall

EDDYVILLE, Ky. (AP) — About 40 inmates are expected to start college classes this fall within the walls of the Kentucky State Penitentiary near Eddyville.

The formal college program could prepare inmates to begin their third year of college when they are freed.

Corrections Commissioner Charles J. Holmes announced Thursday that Murray State University is instituting the program, a first in state corrections history.

Those entering the program will be awarded associate degrees when they complete two years of "general college education work" and can "take whatever direction they desire in going on to obtain a regular four-year college degree," Holmes said.

Donald E. Jones, dean of continuing education at Murray State, said the program "will offer 60 hours of good, hard college credit."

He said the credit hours will be ac-

ceptable at Murray State, "and should be accepted at any other school in the country, since they will be the same as those earned by non-prisoners."

The courses, beginning with mathematics, history, psychology and health and safety the first semester, will be taught by regular faculty members.

About 40 prisoners already have been tested for eligibility for the program, which will be accepted as a substitute for the full-time job inmates are required to have at the prison.

Jones noted that the penitentiary already has a school program leading from the first grade to the equivalent of a high school diploma, so the new program "makes it possible for a man to go all the way to junior in college while in prison."

The program is being started with a \$10,000 Kentucky Crime Commission grant to Murray State, and Holmes said an application will be filed for renewal of the grant.

## Operation Intervention Gets Tentative Approval By State

"Operation Intervention," a program in the Title VIB program, has been given tentative approval by the state for the Murray Board of Education for the coming year, according to the report made at the meeting of the board Thursday night at the office of Supt. of City Schools Fred Schultz.

The board had made application for \$33,000 to be used to screen children, age three years up to Grade Two for learning disabilities. Supt. Schultz said the objective of the program would be to identify youngsters at an early age with special learning problems and to remediate as many as possible.

Murray State University will be cooperating in this project and assisting in the screening of the children, said Supt. Schultz who said he was hopeful this will meet a special need that has not been met before in this community.

Supt. Schultz said the enrollment for the city schools to open August 27 will be about the same as last year. He said the four elementary grades will hold about the same figures; but the Middle School, grades five through eight, will reflect a decrease with the incoming fifth grade, and the High School, grades nine through twelve, will reflect an increase with the incoming freshman class.

The superintendent said fifth grade decrease and ninth grade increase were due to the low birth rate in 1964 and 1965 and the high birth rate in 1960 and 1961.

Supt. Schultz told the board that ex-

tensive renovation has been made at the schools during the summer and reported that the new tennis courts are now operative at the high school and will offer opportunities for use in the physical education programs.

The board approved the employment of the following teachers: Inala Francis, elementary; David Gallagher, Middle School; William Smith, Social Studies, Murray High; Robert C. Baar, Science, Murray High; Donna Midyett, Spanish and

English, Murray High; Dortha Bailey, part time home economics, Murray High, and Toni Worley, part time art, Carter and Robertson Elementary Schools.

Resignations were accepted from Deborah James, Spanish and English, Murray High; Charles Jenkins, English at Middle School; Reita Moody, social studies at Murray High; Jerry Crider, science at Murray High.

## Registration Scheduled At MSU Monday

Registration for the fall term at Murray State University will begin at 8 a.m. Monday, Aug. 25, in the Waterfield Student Union Building and continue through the following day, according to Wilson Gantt, dean of admissions and registrar.

Gantt also pointed out that the registration process will continue until 6 p.m. Aug. 25 in order to enable graduate and part-time students to register for night classes, scheduled to begin during the week of Aug. 25-29, some on the evening of the 25th.

"This will enable those wishing to enroll for night classes to arrive on campus an hour early, go through the registration process and attend their class, provided it meets on that first night, without having to make an extra trip to register," he said.

Daytime classes for the fall term are scheduled to begin with the 7:30 a.m. classes on Wednesday, Aug. 27, according to Dr. William G. Read, vice president for academic programs.

## Ford To Veto Price Controls Extension

VAIL, Colo. (AP) — Calling the nation's energy problem a "giant puzzle," President Ford said today he will veto an extension of price controls on domestic oil and promised to remove his \$2-a-barrel tariff on imported oil if Congress sustains the veto.

The President said the twin actions would increase the price of petroleum products only a few cents a gallon, "con-

trary to what others have predicted."

"Tough decisions are needed now," Ford said in remarks prepared for a Vail symposium on energy and the environment. "We're running out of time."

He said his program is needed to increase domestic oil prices gradually, thus forcing energy conservation, stimulating domestic production and reducing U.S. dependence on imported petroleum.

## Council Discusses School Tax Collection; Centralized Billing

The Murray Common Council handled its regular agenda in speedy fashion last night, adopting an ordinance setting the Murray Independent School tax rate at 57 cents per \$100 valuation and approving the codification of city ordinances by Murray State University.

It was pointed out during the meeting by councilman Melvin Henley that since the city is now the collection agent for the school taxes in the Murray district, residents should be aware of the change in payment deadlines.

The city police on tax payments invokes a 10 per cent penalty if taxes are not paid prior to November 1. Previously, when the taxes were collected by the county sheriff, no penalty was assessed until January 1 and that was a six per cent penalty.

Some council members expressed the feeling that the city should consider lowering the penalty but no action was taken on the proposal. The council was advised by Mayor John E. Scott that the city taxes are now printed and ready to be mailed which will give the taxpayer an opportunity to meet the November 1 deadline and escape paying a penalty.

The codification of the city ordinances, which will include grouping the ordinances as to subject matter, indexing them, eliminating repealed ordinances, retying and printing of the ordinances, will cost

the city an estimated \$3,500. A grant of \$1,000 from the Office for Local Government will defray a portion of the cost and the remainder will be paid from federal revenue sharing funds.

Henley, who is the council's representative on the Murray Electric Plant board, reported that the board had decided not to undertake a large building program at this time. The possibility of the electric system buying a lot adjacent to the present system building and erecting new offices for the system and the proposed central billing agency has been under discussion for some time.

Henley said that the board did still intend to cooperate with the city in central billing and collection of utility bills.

"The action of the electric plant board is regrettable," councilman Rex Alexander said, "...but I can understand maybe why they're backing off at this point. Their financial picture recently hasn't been good with the public pressure (on increases in power rates)."

The consensus of the council was that central billing is not a dead issue but the city will have to investigate other avenues of providing a location for the agency.

Council member Jo Crass complimented city parks and recreation director Gary Hohman on the recent Murray Open Tennis Tournament. Mrs. Crass reported that 305 persons participated in the

tournament and that Hohman and his crew did an excellent job of coordinating the event, especially with the rainy weather conditions.

Mrs. Crass also reported that her committee will consult the Murray School Board concerning a curfew on use of the new tennis courts adjacent to Murray High School. Some complaints had been received from residents of the area, she reported.

The council was advised by councilman Dave Willis that the combined street and sanitation department had saved the city an estimated \$1,275 on repairs and washing of vehicles from all city departments. Willis estimated that had the repairs been done by a private garage, the cost would have topped \$2,900 but the sanitation garage had made the repairs at a cost of only \$1,677.

Councilman Ed Chrisman was complimentary toward local motorists as he reported on Police Department activities for the three-week period, July 18-August 7. Chrisman said the department investigated only seven traffic accidents during the period which is probably "an all time low." He added, however, that the department also issued 197 citations with 170 being found guilty as charged in city court. Many of the citations, he said, were for invalid state inspection and city vehicle license stickers.

## Fiscal Court Lowers County Property Rate

The Calloway County Fiscal Court voted Thursday to lower its tax rate on real estate holdings in the county, from last year's rate of 13.6 cents to a new rate of 13.4 cents.

The move came after re-evaluations statewide left property assessments much higher than last year. The squires are the only taxing agency in the county to lower its tax rate this year.

The move will mean only minor changes in the average tax bill, according to Property Valuation Administrator Charles Hale. For example, on a tax assessment on \$20,000 in real estate, the bill will be \$4 per year less with the new rate than it would have been had the rate been left the same.

The motion to lower the rate came from Squire Gil Hopson, with the consensus of the magistrates that even though the drop

would not amount to a great deal of savings that they wanted to do all they could to alleviate the tax burden of local citizens.

In other action, magistrates approved the paneling of the north hall office of PVA Charles Hale. The move, though subject to change by the court at any time, gives Hale a more permanent claim to the office space.

The court also approved the deed of one-half the property for the city county park to go to the City of Murray. Also approved was payment of the county's \$1,750 share in buying a three-acre parcel of property adjoining the park land.

As mandated by law, the squires also approved the county school board tax rate, as submitted by Supt. William B. Miller on behalf of the county school board.

## Electric System Sets Up Scholarship

A scholarship program designed to aid individuals in becoming electrical engineers and accountants has been initiated by the Electric Plant Board of the Murray Electric System.

The scholarship will be awarded to students at the end of their sophomore year at Murray State University and will continue from the beginning of their junior year until graduation from a recognized engineering or accounting college or university.

The scholarship will cover registration, room, board, tuition, lab fees, books and will provide reasonable sums for living expenses, excluding clothing and household items and the purchase or

maintenance of a motor vehicle.

The scholarship is not designed as a grant or gift and will be repaid to the Murray Electric System in one of two ways.

The recipient may repay the system over a five year period after graduation at the interest rate of six per cent, or;

The recipient may elect to begin his or her professional career after graduation with the Murray Electric System and receive credit on the entire indebtedness at the rate of 20 per cent per year for each year they are continuously employed.

The award recipient will also, at the discretion of the local system, be employed by MES during summer vacation

periods or on a part time basis during the school year.

In adopting the resolution establishing the scholarship, the board said:

"This board desires to further the ambitions of such persons (individuals who desire to become electrical engineers or accountants) by tangible means in the form of financial assistance throughout the years required in education at the college level and beyond.

"The board has concluded that such purpose might be most appropriately accomplished through a scholarship which would provide the student a stipend sufficient to adequately finance such a program."

### VERSATILITY IS KEY

Versatility is a key word in current fashions: blouses that double as jackets worn over shells, and coats that can also be worn as dresses. Barbara Schlinkert, a clothing and textiles department professor at Purdue University, sees this as part of a price-consciousness trend.

## Secretary Broke from Treating Boss to Coffee

By Abigail Van Buren

© 1975 by Chicago Tribune-N.Y. News Synd. Inc.

DEAR ABBY: Several months ago a new lady boss came to work in the firm where I am a secretary. She began asking me to please get her a cup of coffee or a candy bar. (We have dispensing machines.) She is always in a hurry, rushing to another meeting, and never has her purse with her.

Of course, I oblige. She is so lady-like and has such lovely manners, I thought she would reimburse me, but she never has.

Abby, I like my job and don't want to make a big deal out of it, but over the months her coffee and candy bars have put a hole in my budget.

What would be a tactful way of handling this without appearing cheap, embarrassing my boss or getting stuck for more?

STUCK

DEAR STUCK: It's not "cheap" to ask for what is owed you. But you will have to make a choice between recouping your losses and sparing the lady boss from embarrassment. As for protection against being stuck again: When she asks for something from the machine, ask her for the change because you're "fresh out."

DEAR ABBY: I have an uncle who calls himself "Doctor" because he was given an honorary degree at some little obscure college to which he gave a lot of money after he struck it rich.

He introduces himself as "Doctor." When he makes reservations for trips and even at restaurants, he always makes it in the name of "Doctor So and So." Is it legitimate for him to do this? He didn't even graduate from high school.

NO NAMES

DEAR NO: Persons who appropriate the title "Doctor" solely upon the pretense of an honorary degree are reaching for self-esteem and are rather pathetic. But your uncle is harming no one, so let it ride.

DEAR ABBY: I have attended many weddings this summer and am so annoyed by one of the traditions that I have to get this off my chest.

When the bride starts to walk down the aisle, everyone stands up! (I suppose it is to pay tribute to the bride.) Then everyone (except those who are lucky enough to be sitting next to the aisle) starts to twist and turn and bob around, trying to get a look at the bride. Usually, all they can see are the backs of others who are also trying to get a look.

From the center seats, there isn't a chance of seeing the flower girl or ring-bearer. This is unfair to everybody.

Will you please ask ministers to request that everyone remain seated when the bride makes her entrance?

SHORTY IN VENTURE

DEAR SHORTY: Consider it done.

By Dr. H. C. CHILES

#### GROWTH IN OUR RELATIONSHIPS Romans 12:9-21

Since Christ Jesus is our Saviour and Lord, our lives should be characterized by a genuine Christlikeness in our relationships with others in the home, the church, and the social order.

In their relationships with others, Christians should be characterized by an unfeigned, genuine, and fervent love. There is no better place in which to practice love and to demonstrate concern for others than in the church. Let each of us see to it that our love is genuine, and without hypocrisy or pretense. It is appropriate for Christians to detest, hate, loathe, and abhor that which is evil, because Satan is the instigator of it, and because it is so displeasing to God, as well as injurious to other people. While separating ourselves from evil, we should firmly attach ourselves to the good.

This passage of scripture sets forth a high standard for Christian living. It teaches that a true Christian will manifest a number of exemplary virtues, such as: humility, "in honor preferring one another"; faithfulness, "not slothful in business"; earnestness, "fervent in spirit"; diligence, "serving the Lord"; joyfulness, "rejoicing in hope"; devotion, "continuing instant in prayer"; or bringing the human will into compliance with divine will; and thoughtfulness, "distributing to the necessity of saints, given to hospitality." Gratitude for the satisfaction of our needs causes us to strive to meet the needs of others.

It is to be expected that Christians will be subjected to unjust treatment at the hands of others. Such treatment is not easy to take. When it is experienced, the most natural thing to do is to resent it and then to retaliate. The Christian thing to do is to bear the persecution graciously, to forgive, to love, and to pray for the persecutor, asking God to bless him with those things which will be to his advantage. Only the grace of God can enable one to do those things for the one who treated him unjustly.

To love an enemy and to be a blessing to him regardless of his attitude and actions is to comply with the teachings of Christ and to follow His example, and frequently to change that antagonist into a friend. Such love will triumph when all else fails. No other method will be as successful as compliance with the Lord's will. This procedure, as taught by Christ and practiced by Paul, may be very

displeasing to you, because it is the very opposite of the natural human impulse, but it is right and best. The best-known and most effective method of dealing with those who have an ill will toward us is that of showing a genuine sympathy and love for them.

There are those who have great joys and those who have their sorrows. It is both our privilege and our duty to enter into and to share these with them. By so doing we honor the Lord, give them a great boost in their time of need, and enrich our own lives.

Unsaved people naturally return evil for evil, but the saved are expected to return good for evil. Throughout this life we shall meet rebuffs, unpleasant circumstances in business dealings, unkind criticism of our religious convictions, etc., but Paul has urged us to meet the blows of those who treat us wrongfully with forgiveness and kindness. Retaliation is neither successful nor satisfying. Nor is it Christlike; in fact, it violates both the example and the command of our Lord. Manifesting the spirit of Christ will be a rebuke to one's persecutor. Besides, suffering ill treatment from others is no justification for our wrongdoing.

Love returns good for evil, endeavors to bring about peaceful relationships, never seeks vengeance, always shows kindness to enemies, and constantly strives to dispel evil with goodness. Love is the most effective weapon that a Christian can use. Active assistance to those who persecute us will be exceedingly beneficial to them in an area where their needs are great. By actively helping those who do not deserve your helpfulness you can honor Christ and advance His cause.

Christians should accept one another without pride or conceit. They are to refrain from attempting to exalt themselves above others. Christians are obligated to let those, who do not know the Saviour in the forgiveness of sin, see Christ in and through them.

God's children must live peaceably with all men who will permit them to do so. If there is any quarreling, Christians must be sure that none of it comes from them, and they must react to the quarreling in the spirit of Christ, which is love.

It is natural for people to seek vengeance when they have been mistreated. No Christian has any right to avenge himself for any wrong done to him. To yield to the temptation of Satan to get even with an opponent is to lower yourself to the level of the one who has injured you. That method is not the one which Christ exemplified and taught. A Christian simply cannot afford to get down in the mire or live on a low level with an adversary. When a Christian suffers an injustice at the hands of another person, he should leave his case in the hands of the Lord and never seek vengeance. "Vengeance is mine; I will repay, saith the Lord." Just how and when the Lord will repay is none of our business, but it is enough to know that He will do so. God's way of righting wrongs will prove to be the best in every case. Therefore, always leave it to Him to take care of that.

### Contemporary Religious Thought

## The American Civil Religion

By Dr. David Roos  
First Christian Church

(This is the first in a series of articles written by the clergy dealing with the Bicentennial.)

G. K. Chesterton perceived that America was a "nation with the soul of a church." It is a country "founded on a creed" with commitments no nation can fully embody.

The religion of America is neither Christianity nor Judaism. Robert Bellah identifies it as "the American civil religion." Will Herberg from another angle of vision sees it as the "American way of life." Others refer to it plainly as "the nation itself."

No one denomination was allowed to become the official guardian of the primary symbols of the nation so the state itself filled the void. It became its own unifying center of identity.

In America, faith in the nation runs deep. Americans believe themselves to be "the last best hope for mankind." Americans believe they have been charged with "setting an example for the world." And until recently Americans believed themselves, however, innocently, to be a "good, generous, and compassionate people."

What then is the civil religion? According to Michael Novak "it is a public perception of our national experience, in the light of universal and transcendent claims upon human beings, but especially upon Americans; a set of values, symbols, and rituals institutionalized as the cohesive force and center of meaning uniting our many peoples."

There is the one "American way of life" into which Americans of all backgrounds are sought to be drawn. But there is also conflict and disagreement within that "way." There is, that intangible thin overarching unity that makes us all Americans on the surface but within it there are several civil religions.

Novak, a Roman Catholic, has identified at least five that have political importance among Protestants. Due to limited space it will be necessary to deal with the various civil religions among American Catholics as well as Jews later.

First, there is the classic mainline

Protestantism of New England institutionalized in the elite prep schools and Ivy League Universities. This high church tradition places much emphasis upon institutions (perhaps because they either tend to own or control them), law, civil liberties, and the spirit of compromise and tolerance. Political figures like Nelson Rockefeller and Eliot Richardson suggest the style.

Second, there is the populist tradition which spreads across the Bible belt and is found in small towns and rural areas almost everywhere. This low church style centers in the individual and often is suspicious of formal authority. It prizes familial relationships and often is xenophobic. It feels the need to "clean house" frequently. George Wallace and Lyndon Johnson are able to articulate its symbolic world.

Third, there is the commerce oriented middle church style from the heartland, reformed minded yet practical, intent on making good persons with a missionary salesmanship. Billy Graham works well within this tradition but also has the good fortune of also reaching the second great tradition already mentioned. On the one hand Dwight Eisenhower and on the other Hubert Humphrey suggest the diversity of the strain.

Fourth, there appears cyclically an Awakening Protestant type who calls for reform. Such a leader may serve as a catalyst for major political or moral realignment. George McGovern broke outside the normal American traditions and yet was following a time worn path. Finally, there is the black Protestant experience. Blacks have all the traditions stated for whites but they also have their own born out of the black experience of slavery and suffering.

Each of these traditions have its own peculiar view of America. Each has its own language and methods, fears and dreams, rituals and celebrations. Each has its own attitudes toward practicality, compromise, tolerance, and stereotype of the other.

## Public Falls Into A Donut Hole

The unemployment problem and concern over world food shortages had a bearing on the decision of the Florida Cabinet to urge the federal government to allow farming to continue inside Everglades National Park. But the facts of the case, we think, were exaggerated and the whole issue viewed from a distorted angle.

As the National Park Service pointed out, tomato production in the "hole in the donut" does not have as strong an impact on the nation's food supply and the country's labor force as the farmers imply. For one thing, if as many migrants worked in the park as claimed, their gross weekly earnings would amount to less than \$40 a week. That would indicate some rather flagrant violations of the Fair Labor Standards Act.

Testimony before the Cabinet showed that concentrations of DDT and other chemicals from the farming areas were showing up in significant quantity in the once-pristine wilderness areas downstream. This contamination which threatens to change the character of the park is coming from land which was purchased for public use at considerable expense to the taxpayers.

The investment in the 33,000 acres of inholdings amounts to \$11 million. And, significantly, none of the land was acquired through condemnation. All purchases from the private owners were negotiated.

Beyond the question of merit there is the problem of precedent, not only for Everglades National Park but for all public land. It was properly posed by the Park Service representative, who asked:

"Shall special interest groups determine the use of the national parks for personal exploitation and gain or should they be managed as Congress intended in the interest of all citizens for generations to come?"

### Today In History

Today is Friday, August 15, the 227th day of 1975. There are 138 days left in the year.

Today's highlight in history:

On this date in 1914, the Panama Canal officially was opened to traffic.

On this date:

In 1769, Napoleon Bonaparte was born on the Island of Corsica.

In 1935, humorist Will Rogers and aviator Wiley Post were killed in the crash of their airplane near Point Barrow, Alaska.

In 1944, the Allied invasion of southern France began in World War II.

In 1947, the independent states of India and Pakistan were created, ending two centuries of British rule.

In 1948, the independent Republic of Korea was proclaimed.

In 1961, East German workers began to build the Berlin Wall.

Ten years ago: Los Angeles authorities said they had gained the upper hand on the fifth day of rioting in the city's southwestern Black district, although sporadic looting, sniping and armed conflict continued.

Five years ago: The avowed Communist, Angela Davis, was being sought on warrants charging murder and kidnapping

in a courtroom raid in San Rafael, Calif., in which a judge and three other persons were killed.

One year ago: The 48-year-old wife of President Park Chung Hee of South Korea was killed in Seoul by an assassin's bullet evidently intended for her husband.

Today's birthdays: Britain's Princess Anne is 25. Cooking expert Julia Child is 63.

Thought for today: To recommend thrift to the poor is like advising a man who is starving to eat less — Oscar Wilde, Irish writer, 1854-1900.

Bicentennial footnote: Two hundred years ago today, General George Washington assured the Americans at New York's Fort Ticonderoga that the British had not sent reinforcements to Canada.

### Isn't It The Truth

One thing that people on the make soon learn when they go to Washington is that in national politics you cannot be true to your friends all of the time. Ask any person who has worked there and suffered a cut throat and a scalped head, and then been prevented from thumbing his nose at Congress.

## Ozone Purification Of Water

A new ozone method of purification of public water supplies may challenge the use of chlorine for this purpose.

Considerable adverse publicity has been given in recent months to findings that raise questions of danger from chlorination of drinking water, especially in water such as that in the lower Mississippi, in which there are many industrial waste products. Some of these are thought to react with the chlorine and form toxic products, some of which are known to be carcinogenic.

In addition, chlorine and its products are said to be accumulating in undesirable levels

in lakes and reservoirs, thus contaminating our drinking water. From an economic point of view, chlorine is in short supply and growing more expensive.

A relatively new method of purification, designed by Telecommunications Industries, Inc., uses ozone (O<sub>3</sub>) to clean (Oxide) impurities from water. In addition, the procedure calls for ultrasonic waves to break the suspended material in water. The smaller particles are more completely exposed to the oxygen, speeding up the reaction and hastening purification. This increase in the rate of oxidation makes it possible to handle more water in a shorter time and in a smaller place.

Unlike chlorine, ozone is very unstable and will not remain long as a residue in the water, the ozone promptly becoming nontoxic, desirable oxygen.

The Environmental Protection Agency continues to express preference for the chlorination method, but support for the ozone method is growing. Tests on the new system probably will gain acceptance within the near future.

Q: Mrs. T. T. wants to know where she can obtain information that is directed to helping persons 65 years old and older.

A: You can write to the National Council on Aging, 1828 L

Street, Washington, D.C., 20036, or the American Geriatric Society, 10 Columbus Circle, New York, N.Y. 10019. You may be able to obtain help by telephoning the County Medical Society in your area.

Q: L.S. inquires whether being "gay" is a sickness.

A: The American Psychiatric Association has taken the official position that being "gay" is not a sickness. Of course, a person can live a full and useful life, whether he or she is heterosexual or homosexual. In fact, many people live effective lives without any sexual activity.

HEARTLINE is a service for Senior Citizens. Its purpose is to answer questions and solve problems—fast. Write to HEARTLINE, 8514 North Main St., Dayton, Ohio, 45415.

Heartline: I recently purchased an insurance policy (Health and Accident) and also a nursing home policy from the same company. The nursing home policy claims to offer much protection, but I notice a paragraph in shall print that says this nursing home policy will not cover me in a nursing home unless Medicare is also covering me. What happens if Medicare does not cover me? Mrs. S. M.

Answer: You have purchased a policy that could very well be worthless. Unfortunately, most nursing home policies from private insurance companies will not cover you unless Medicare covers you, and the sad fact is that most Senior Citizens who must go to a nursing home do not meet the requirements for Medicare coverage, and those who do rarely receive the 100 days of protection that the H. E. W. handbook mentions. Stick with a nursing home

policy that will cover you whether Medicare does or not, if you can find one.

Heartline: Your column has had more than one question and answer of late about the Gray Panthers. Are you part of the Gray Panthers, and do you feel that it is a worthwhile movement? I have read your column from the beginning, and I know that you do not normally take sides on issues, especially controversial ones. I do hope you will answer this in your column. I place much faith in your information, since I am one of many whom you have helped individually with a serious problem. N. C. B.

Answer: Heartline is not part of, nor has any connection with, the Gray Panthers. Heartline's staff and Heartline's director agree that the Gray Panthers movement is worthwhile, and we might add, very important.

The purpose of the Heartline column is to inform America's elderly, and people of all ages who are concerned about America's elderly, on subjects of interest and importance.

## GOD'S OPTIMISM

We have all heard it said that a pessimist is one who says a glass is half empty, while an optimist is one who says it is half full. The Christian is more likely to be an optimist, for his faith gives him an ever-abiding hope — a joyful outlook on life. Attend your church on Sunday — there you will find a new joy in life — God's optimism.

# Tigers Did Not Lose Thursday (It's Simple—They Didn't Play)

By FRANK BROWN  
AP Sports Writer

The Detroit Tigers didn't lose Thursday. They didn't play, either, and it may be just as well. The Bengals' fans, just like the players, have lost patience after 18 consecutive losing days.

"Is it true they're going to put paper bags on the seats at Tiger Stadium like they do on airplanes?" asked one frustrated fan in a letter to a Detroit newspaper.

"No, not true at all" was the printed reply. "It's the garbage on the field that's the problem."

Another reader said, "The Tigers should be charged with fraud for impersonating a professional baseball team."

The charges were pending as the Tigers boarded a plane for — no, not oblivion, but for Anaheim, Calif. Against the Angels tonight, Detroit will try to break the 18-game losing string that has brought them within two of the American League record and five of the modern major league mark held by the 1961 Philadelphia Phillies.

"There's no question that the attitude that has built up this last week on the team is that we gotta win this game tonight," said Tigers Manager Ralph Houk. "No one likes to lose a ball game. All losses are frustrating. One isn't more frustrating than another. It hasn't gotten to what are called Dog Days yet."

But the kennel beckons. The Angels have a one-game winning streak.

California rode a five-run third inning to a 5-3 triumph over the Boston Red Sox Thursday night, and elsewhere, the Oakland A's topped the New York Yankees 5-1 and the Chicago White Sox tripped the Cleveland Indians 6-4 in an abbreviated American League schedule.

Angels 5, Red Sox 3  
A two-run double by Jerry Remy and a two-run single by Lee Stanton keyed a five-run third inning and backed Bill Singer's first victory since June 9 as California beat Boston for the second time in three games.

Red Sox rookie Fred Lynn had two RBI, raising his league-leading total to 85.

White Sox 6, Indians 4  
Pat Kelly cracked a home run and a two-run triple to power Chicago past Cleveland for Jim Kaat's 17th victory.

Kelly's eighth home run of the season came in the seventh inning to tie the game at 4-4 before doubles by Jorge Orta and Deron Johnson gave Chicago a 5-4 lead.

John Ellis and Rico Carty cracked solo home runs off Kaat. Bill Stein launched one for the White Sox.

A's 5, Yankees 1  
Bill North's tie-breaking single in the eighth and sloppy New York fielding led to a four-run inning and lifted Oakland to victory. The crowd of 14,140 gave the A's a season home attendance of 853,455 — more than 8,000 over their total for last season.

Dick Bosman pitched a five-hitter to beat Rudy May, who has received a total of five runs in support over his last four games.

### Curci Says 6-3 Junior May End UK's Passing Problem

LEXINGTON, Ky. (AP) — University of Kentucky football Coach Fran Curci says a 6-foot-3 junior might be the player to end UK's passing woes this season.

Kentucky passing has been inconsistent for the past two years. Curci's main decision usually has been whether Mike Fanuzzi, Sonny Collins or Steve Campassi would run with the ball, and which way.

"We were a very poor passing team," Curci said recently, "but we did overcome it because we could control the line of scrimmage almost anywhere we wanted to go — up the middle, off tackle or outside."

"If we could have passed reasonably well, then we would have been a tremendous threat," he said. "Without the threat of a pass, the defense had a chance to put extra men up there to sometimes stop us from making the yardage."

When fall practice begins Tuesday, and when Kentucky opens its season Sept. 13 hos-

ting Virginia Tech, Curci will be thinking of 6-3 junior Cliff Hite and his passing ability.

Hite filled in for Fanuzzi against Tennessee in the final game of last season, and was No. 1 quarterback at the end of spring practice.

Curci hopes if Hite can win and keep the quarterback job he can make the passing threat a reality for UK.

"You have to stop the running, but when you commit people to stop their running, that's when they hurt you with a pass," he said. "And when they hurt you, it's a touchdown."

"We haven't had that ability yet, that's why a guy like Cliff could help this team," he said. "Fanuzzi could make 15 or 20 yards on a run. Cliff could make 15 or 20 yards with a throw."

"And if his passing can keep the secondary loose, it will release Collins and Campassi and those kind of people to run," Curci said.

The coach said he won't decide solely on the basis of Hite's performance in practice. "You can't really judge a person until he's been in the fire of a game."

"Some guys are game players and some are great in practice but don't do as well in a game," he said. "So you have to leave that open until someone is clearly the best."

### Meyer Says Hartford Lead Does Not Compare With Playing With Palmer

By BOB GREEN  
AP Golf Writer

WETHERSFIELD, Conn. (AP) — He's an obscure little club pro who had just shot himself a smooth seven-under-par 64 and, in probably the biggest surprise of the season on the pro golf tour, owned the first-round lead in the \$200,000 Greater Hartford Open.

Pretty exciting for Dennie Meyer, right? Thrilling stuff. Leading a pro tournament and shooting 64 and going for a \$40,000 first prize. It's got to be exciting, nervous-making, right?

"It does not compare with playing with Arnold Palmer," said Dennie Meyer. "That was the highlight of my golfing career."

Meyer, a 31-year-old pro at a public course outside Palm Springs, Calif., played with Palmer last week in the third round of the PGA National Championship.

"I played with Palmer and I

lived through it," the still awestruck Meyer said Thursday. "This is a cupcake after that. I don't think I'll ever be nervous again."

Meyer, cool, calm and collected as could be in this, only his sixth tour event of the year — and maybe his last — scored eight birdies, one-putted 10 times and once holed a breaking, curling, 40-foot sidehill putt to save par.

"I really hadn't planned on playing here but last week Dave Stockton (the defending champion in this event) told me it was a pretty short course. I'm not a very long hitter and I figured if it was short, well, maybe I'd have a chance to make the cut."

And that's still his objective. He really doesn't entertain any thoughts of winning the tournament or staying on the tour. He's going home as soon as this one is over.

"I've got a nice home and a nice wife and a nice family," he said. "I don't think I want to try it on the tour unless some-

thing unforeseen and unexpected happens — like winning the tournament."

Meyer held a one-stroke lead over his playing partner, rookie tourist Austin Straub, and Don Bies, tied at 65.

The group at 66, five under par on the tight, little 6,596 yard Wethersfield Country Club course, was made up of J.C. Snead, Hubert Green, Mike Hill, Andy North and David Glenz.

U.S. Open champion Lou Graham topped a group at 67. Johnny Miller birdied two of his last three holes for a 69 and was tied at that figure with Gary Player and Stockton. Lee Trevino fought to a 72, eight strokes back of the surprise leader, and must improve if he is to make the cut for the last two rounds.

Palmer, Jack Nicklaus, Tom Weiskopf, Bruce Crampton and four-time Hartford winner Billy Casper are not competing.

### Orantes Continues Winning

By The Associated Press  
TORONTO (AP) — Manuel Orantes, winner of the U.S. Clay Court title last week, is continuing — with a vengeance — his winning ways.

Orantes was lacking in neither skill nor stamina Thursday, emerging the victor in a tripleheader of sorts that saw the aggressive Spaniard down Jan Kamiwazumi of Japan 6-2, 6-4 in second-round play, and then advance by defeating American Norman Holmes 6-2, 6-0 in a third-round match. Finally, he joined with countryman Juan Gisbert to overcome Britons Gerald Battrick and Graham Stillwell 4-6, 7-5, 6-4 in men's doubles.

Ilie Nastase, of Romania likewise had a busy day, toppling Thomas Koch of Brazil 6-2, 6-2 and then teaming up with Czech Jan Kodes for a doubles triumph.

In women's third round singles, 19-year-old Dianne Fromholtz of Australia, who spent three months last year studying under fellow countrywoman Margaret Court, posted a 6-3, 3-6, 6-2 upset over her top-seeded teacher.

Meanwhile, the top two seeds in the \$50,000 Buckeye Tennis Championships in Columbus, Ohio, scored easy victories.

Stan Smith, the No. 1 seed, breezed by Ken McMillan 6-4, 6-2, and second-seeded Bob Lutz ousted Mike Estep 6-1, 6-3.

However, unheralded Jim Delaney surprised third-seeded Karl Meiler of West Germany 7-6, 6-3 and Sherwood Stewart upset sixth-seeded Ulrich Pinner of West Germany 6-3, 6-0.

Fifth-seeded Tom Gorman was pushed to three sets before turning back the upset bid of Anand Amritraj of India 5-7, 7-5, 7-6.

## Question Is Not If Foolish Pleasure Will Win—It's Will He Run In Travers

**SARATOGA SPRINGS, N.Y. (AP)** — The question here is not whether Foolish Pleasure will win the historic Travers Stakes Saturday but whether he will run in the race.

The question was to be answered today when entries were made for the \$100,000-added, 1 1/4-mile race for 3-year-olds.

Trainer LeRoy Jolley shook up the New York Racing Association Thursday when he told Racing Secretary Kenny Noe that he might not enter the Kentucky Derby winner in the Travers at Saratoga.

John L. Greer, Foolish Pleasure's owner, said he would leave the decision up to Jolley, who also would have to decide on a jockey to replace Jacinto Vasquez, who is serving a suspension.

"There wouldn't be any point in my hiring a horse trainer if I didn't rely on his judgement," said Greer. Jolley didn't elaborate on his statement to Noe. But Greer said the trainer might be upset by the NYRA's announcement that Noe, a friend of Jolley's, will be replaced by Tommy Trotter, effective Oct. 1.

"This will set New York racing back 10 years—and you can quote me on that," Jolley was quoted as saying about Noe's dismissal.

If Foolish Pleasure does run in the Travers, it will be his first start since he beat the ill-fated Ruffian in a match race July 6 at Belmont Park. And a victory would make him a million-dollar winner.

Foolish Pleasure, the 1974 2-year-old champion, has won an allowance race, the Flamingo, the Wood Memorial, the Derby and the match race in eight starts this year and will continue racing through 1976 under terms of a \$4.5 million syndication currently being put together.

Others expected to be entered in the Travers were:

Saron Stable's Forceten, jockey Don Pierce; John Galbreath's Prince Thon Art, Marco Castaneda; East-West Stable's Wajima, Braulio Baeza; Harry T. Mangurian's Valid Appeal, James Long; Max Gluck's Media, Jean Cruguet; Patricia Blass' My Friend Gus, Bryan Fann, and Sigmund Sommer's Ramahorn, Mike Hole.

Forceten won the Jim Dandy Stakes here nine days ago and Prince Thon Art was second. Wajima won the Monmouth Invitational and Valid Appeal was the Dwyer Handicap winner.

Each starter will carry 126 pounds.

In another \$100,000-added, 1 1/4-mile race Saturday, Dan Lasater's Royal Gint, the United Nations Handicap winner who has made all 10 of his starts this year on the grass, will switch to the dirt and meet 10 rivals in the \$100,000-added Amory L. Haskell Handicap at Monmouth Park.

Royal Gint, will be co-high-weighted at 121 pounds with Timberland Stable's Stonewalk, winner of the Cornhusker Handicap at Ak-Sar-Ben, and runner-up in the United Nations. Others entered include Mongono, 120; Proper Bostonian, 118; Group Plan, 115 and Royal Gint's stablemate, Hey Rube, 116.

Lasater also will try to win the \$30,000-added, 11-16-mile Cotillion Stakes at Keystone with Hot N Nasty, who won the Hollywood and Arlington-Washington Lassie Stakes last year and

has won both of her 1975 starts including a division of the Test.

She will carry 116 pounds, the same as George Weasel Jr.'s My Juliet, winner of the other half of the Test and three other stakes this year, and five less than Roxie Gian's Hoso, also a four-time stakes winner in 1975. Another stakes winner in the 10-horse field is Gertrude Leviton's Gala Lil, 118.

In other Saturday stakes races, Buffalo Lark, 124, and Zografos, 114, head an 11-horse field for the \$40,000-added Governors Cup Handicap over 1 1/4 miles on the grass at Arlington Park; Mercy Dee, 117, tops a field of 13 fillies and mares in the \$20,000-added Osmitas Stakes over 11-16 miles on the turf at Del Mar, and Solo Royal, 120, will oppose seven other 3-year-old fillies in the \$20,000-added Begonia Handicap at Calder.

## Foster And Nolan Don't Show Much Respect For Pittsburgh

**By BRUCE LOWITT**  
**AP Sports Writer**  
Sparky Anderson says you still have to treat the Pittsburgh Pirates with respect ... but what George Foster and Gary Nolan did to them was downright impudent.

Foster slugged his 20th and 21st homers of the season Thursday night to drive in five runs and Gary Nolan muffed the Pirates' bats on just four hits in eight innings as Anderson's Cincinnati Reds cruised to a 6-1 victory.

In the rest of the National League, Atlanta beat St. Louis 6-4, San Francisco bombed Montreal 9-2 and Chicago squeezed past Houston 5-3.

"Maybe Pittsburgh is in a slump, but we have to treat them like the good hitting club they are," Anderson said after Cincinnati handed the Pirates their third straight loss and the eighth in their last nine games.

The result shaved the Bucs' East Division lead over idle Philadelphia to 24 games and

widened the Reds' margin over Los Angeles to 15 1/2 games in the West.

"I'm just attacking the ball," Foster understated. He followed singles by Ken Griffey and Tony Perez in the fourth inning by powering a three-run homer off Jerry Reuss. And after Perez singled in the sixth, Foster teed off on another Reuss pitch.

A Joe Morgan single off reliever Kent Tekulve gave the Reds their final run in the eighth.

Nolan had some pretty good power himself for a while. He retired the first 15 Pirates he faced before Manny Sanguillen broke up his perfect game and no-hitter with a leadoff single in the sixth inning, then ruined Nolan's shutout with a homer in the eighth. Will McEnaney took over in the ninth and got the final three outs with no trouble.

Braves 6, Cards 4  
Dave May's three-run homer in the first inning and Vic Correll's solo blast in the fourth

boosted Atlanta past St. Louis. The loss left the third-place Cards 4 1/2 games back of the Pirates and two behind the runner-up Phils.

**Giants 3, Expos 2**  
Dave Rader hit a three-run homer in the second inning and pitcher Jim Barr lashed a two-run double to highlight a four-run fourth in the Giants' rout of Montreal.

**Cubs 5, Astros 3**  
The Cubs literally squeezed their victory out of Houston, Rob Sperring and Steve Swisher dumping successive run-scoring bunts in the fourth inning.

With the score tied 2-2 and runners on second and third, Sperring bunted back to the mound. J.R. Richard fielded the ball but his throw to home was too late. Swisher followed with a bunt between the mound and first base for a hit that scored what proved to be the winning run.

## No Quick Decision Expected By NLRB

**NEW YORK (AP)** — It became clear Thursday that there will be no quick decision by the National Labor Relations Board on the charges of unfair labor practices by the National Football League's club owners.

NLRB Chief Examiner Charles W. Schneider heard testimony from Houston Oilers defensive end Elvin Bethea and Minneapolis attorney Dan T. Lindsay Thursday, the seventh and eighth witnesses in a case which began Monday and will last until October at least.

The NFL club owners have been charged by the NFL Players Association with 15 unfair labor practices stemming from the player strike before the 1974 season.

Bethea completed his testimony, begun late Wednesday, that center Bill Curry — at the time of the strike the president of the NFLPA — was the best center on the Oilers when dropped by the team. NFLPA lawyers charged that it was Curry's position with the player group, not a knee injury suffered the season before, that led to Curry's departure from the club.

Lindsay, an attorney working for the NFLPA at the time of the strike, gave evidence on the situation at the training camp of the St. Louis Cardinals during the strike. The Cardinals, Kansas City Chiefs and Dallas Cowboys have been charged by the NFLPA as having denied the group proper access to rookies during the strike.

Defense attorney Don T. Pace, on behalf of the owners, had not completed his cross-examination of Lindsay when the weekend recess was called. In deference to the heavy weekend schedules of the players and coaches involved, the court schedule calls for hearings on Tuesday through Thursday until player-coach testimony is completed.

Attorney Thomas T. Trunkes of the NLRB, representing the public's interest in the matter, estimated that the players' presentation would last at least two weeks more. The owners' counsel could take at least that long, then 35 more days are permitted for the lawyers to write their summations of the proceedings before Schneider begins deliberation and makes final judgement on each of the NFLPA charges.

### Carmichael Honored

**CHICAGO (AP)** — Retired Chicago Daily News columnist John P. Carmichael will be inducted into the National Baseball Hall of Fame in Cooperstown, N.Y., Monday.

Carmichael, 73, gained national fame for his column, "The Barber Shop," which he still writes occasionally for the Daily News. He officially retired from the newspaper in 1972 after 41 years as a sportswriter and now works as the community relations representative of the Chicago White Sox.

Carmichael will be inducted into the Writer's Division of the Hall of Fame Monday and will be presented the J.G. Taylor Spink Award, which was named after the founder of "The Sporting News."

### Gustin Leads Shooters

**CAMP PERRY, Ohio (AP)** — Final competition resumes today in the national smallbore position championships here with reserve Army Lt. Robert Gustin in the lead with a score of 1,557.

Gustin of San Dimas, Calif., is trailed by Donald Wise, Washington, Pa., who fired 1,555 and Lance Peters, St. Paul, Minn., who fired a 1,554.

### Kazor Accepts Post

ARLINGTON, Tex. (AP) — Assistant Football Coach Steve Kazor has resigned from the University of Texas at Arlington staff to accept a job coaching the defensive line at Colorado State University, it was announced Thursday.

Kazor, a graduate of Westminster College in Utah, coached at Camden Military Academy in South Carolina and was head coach at the College of Emporia in Kansas before coming to UTA in 1974.

## NCAA Prepares For Some Wordy Battles Over Recruiting Today

CHICAGO (AP) — The National Collegiate Athletic Association prepared for some wordy battles today over recruiting and the size of coaching and income distribution in a continuing attempt to combat the skyrocketing costs of intercollegiate sports.

The final day of the second special convention in NCAA history seemed certain to provide more fireworks than Thursday's opening business session,

which consisted mainly of chopping major athletic schools from 105 scholarships to 95 in football at any one time and from 18 to 15 in basketball.

The delegates also: —Cut football grants in Division II from 105 to 60 and in basketball from 18 to 12.

—Trimmed the total number of athletic scholarships in minor and non-revenue sports — everything except football and basketball — from 209 to 80 at

any one time in Division I. —Passed a resolution instructing the policy-making NCAA Council to prepare a comprehensive plan for establishing a financial-aid program based on need.

However, a proposal to do away with all athletic scholarships was withdrawn by the sponsoring Pacific Coast Athletic Association.

"We didn't achieve all we hoped for, but there were sev-

eral encouraging signs," said John A. Fuzak, president of the NCAA and associate dean of the School for Advanced Studies at Michigan State University.

However, Dr. Stephen Horn, president of Long Beach State University, who sponsored several proposals that raised the stakes of the major football schools, said the convention, "failed on one of the major issues," by only cutting Division

I football scholarships from 105 to 95. Dr. Horn had proposed eliminating all initial football scholarships — the limit was kept at 30 in any one year, but no more than 95 at one time — while slicing the total number of such grants-in-aid to a maximum of 65 by Sept. 1, 1978.

The current figures of 30 and 105 were adopted at the NCAA's annual convention in January, 1974, but the 105 limit

wouldn't have taken effect until the 1977 season. Most coaches at major schools opposed the reduction to 95, but weren't overly upset.

Some of the legislation to be voted on today would:

—Limit the number of coaches in football to seven assistants, plus two part-timers, and in basketball to one and one.

—Reduce the size of game squads and the lengths of sea-

sons. —Share the wealth of football and basketball bowls and television income.

—Limit off-campus recruiting in football from Dec. 1 to the first Saturday in February and in baseball from Feb. 15 to the second Saturday in April.

—Limit off-campus contact with a prospect to two visits.

—Limit the number of expense-paid campus visits to 75 prospects in football and 12 in basketball.

—Limit a prospect to visit four institutions.

## NKSC Professor Files Charges Against Steeley

COVINGTON, Ky. (AP) — A Northern Kentucky State College professor, charged with incompetency, immoral behavior and insubordination by the school's president, has filed similar countercharges.

Dr. Leslie Tihany Thursday filed charges of incompetency, neglect of duties and immoral conduct against Northern Kentucky State's president Frank Steeley. Tihany's charges came at the fourth session of a hearing being conducted by the school's board of regents on an attempt by Steeley to get the professor fired.

Steeley said Tihany's charges "are simply untrue." They'll be heard by the board of regents after those against the professor are disposed of, according to regent's chairman Ken Lucas of Florence.

Tihany charged that the Northern Kentucky president gave false testimony while under oath at the hearing, when

Steeley told the regents he did not interfere with a faculty study of reported wiretaps on campus telephones.

Tihany also charged Steeley with "fostering academic dishonesty" by failing to discipline two department chairmen for allegedly intimidating another professor to try to get him to give false testimony against Tihany.

The school president was also accused by Tihany of violating faculty and student's civil rights by not firing a campus security official after the had acknowledged improper surveillance of faculty members.

Testimony by witnesses supporting Steeley's charges against Tihany was heard at Thursday night's meeting. The regents voted before the meeting to continue the proceedings until all witnesses for both sides could be heard.

In other action the board accepted the bids of Ryan Milk Company and Bunney Bread Company, Inc., for milk and bread products respectively for the schools for the coming year. The board also voted to recommend John T. Muncey Insurance Agency and Delta Dental Health Plan as insurance for students on a voluntary basis for the school year as recommended by Asst. Supt. Preston Holland.

The board members authorized Supt. Schultz to have the annual financial statement published in the Murray Ledger & Times, and also approved the revision of the school board policy as made by the advisory committee.

LOUISVILLE, Ky. (AP) — The state fair heads into the weekend with a free circus and musical attractions tonight, as well as a rodeo and a show by singer Mac Davis for those who want to pay.

Free attractions include the Bluegrass Alliance, Myron and the Van Dells, the Toby Tolliver Tent Show, a 4-H variety show and the Circus Internationale.

## Goshen Church Will Hear Rev. Archer At Revival Services

The Goshen United Methodist Church, located at the intersection of Mayfield Highway and Kirksey Highway 299 at Stella, will hold revival services starting Sunday, August 17, and continuing through Friday, August 22.

Rev. John Archer, former Goshen minister, now pastor of the Reidland United Methodist Church, will be the speaker for the services at 7:30 p. m. each evening.

Groover Parker will direct the song service with Miss Katie Kemp at the organ and Miss Carolyn Venable at the piano. Special music will be featured. The church and the pastor, Rev. Bill Hart, invite the public to attend.

The entertainment provides a break for those showing animals in the "open" cattle shows that began today and those preparing for 4-H and Future Farmers of America beef cattle shows next week.

Hundreds of farmers and their families are spending their days at the fair brushing and polishing animals, preparing them for show rings.

One, E. Hobbs of Mayfield, Ky., revealed an affliction unexpected in a dairy farmer.

Hobbs wore a breathing mask similar to a surgeon's as he curried a Holstein bull. He took the mask off long enough to explain that he's allergic to cattle and dust, and went on to talk about the animal.

Hobbs said he thought the 1,600-pound bull, Hobbs-Haven Fury Nate, had a good chance at a blue ribbon. He said Nate is worth about \$10,000, and a grand championship would make him worth much more.

Another exhibitor, Benny Hahn, who owns an Ayrshire dairy farm in Mercer County, said at first that wealth wasn't the object of the fair shows.

"There's no money in showing," he said. "It's just something else to do."

He added, though, that "you win one of those grand championship things and people say, 'Look, this fella's got pretty

good stuff.' They come around buying your heifers."

Cows aren't the only animals in the spotlight at the fair, though other exhibitors may have less to gain with a win.

John Farries, 20, of Louisville said his four Black Wyandotte chickens are probably worth five or ten dollars. Farries said he didn't believe a blue ribbon would add much to their value,

though it would "prove that I've worked hard."

A rooster from the state's largest metropolis was vocal enough to out-distance seven others.

## Bangladesh President Rahman Reported Killed In Coup Today

NEW DELHI, India (AP)—President Mujibur Rahman of Bangladesh, hero of his country's struggle for independence from Pakistan 3 1/2 years ago, was killed early today in a military coup, Radio Bangladesh announced.

The radio said Sheikh Mujib had been replaced by a former close associate, Khondakar Mushaque Ahmed, and that a 24-hour curfew had been imposed. An army officer identified as Major Dalim called in the broadcast for all citizens to "remain calm and stay at home."

Diplomatic reports reaching New Delhi said that Prime Minister Mansoor Ali and two of Sheikh Mujib's nephews had also been killed in the coup.

The reports said the coup leaders had renamed the country the "Islamic Republic of Bangladesh" instead of the "People's Republic of Bangladesh," indicating the new government planned to stress Islamic policies rather than Sheikh Mujib's socialist line. About 90 per cent of Bangladesh's estimated 77 million people are Moslems.

The coup followed growing dissatisfaction with Sheikh Mujib's failure to come up with so-

lutions to the country's staggering economic problems.

The diplomatic reports said the coup was staged at 5:15 a. m. (7:15 p. m. Thursday EDT) and there had been sporadic fighting in the early stages around Dacca, the capital. However, two hours later "by and large everything is quiet," the reports said.

These reports were backed up by the United News of India news agency, which reported from Dacca that everything was calm in the capital and there was no indication of any opposition to the new rulers. Tanks patrolled the main

streets of the city and guarded roads leading to Sheikh Mujib's residence, the agency said.

Dacca airport was reported closed to flights from India.
